COKE IS MAD.

And Lets His Temper Get the Best of His Discretion.

A dispatch to the Dallas News says: Two thousand people from all parts of the county were in Hillsboro last Monday. Some to hear Coke and Abbott talk politics, others to attend the estray sale—this being "first Monday"—and the remainder to witness a fight at the opera house between a Mexican lion and six bull-dogs.

The talk of the day, however, says the News correspondent, has been the speech of Senator Coke. For bitterness, as is shown herewith, its parallel does not appear in this campaign. The senator's warmest friends in many instances are loud in expressions of disapproval of his remarks. In fact his speech of two hours was almost entirely devoted to abuse of Judge Clark and his supporters, N. W. Cuney and the third party. In fact nothing escaped his attention save national politics. From the very outset of his speech to its close the anti-Hoggites were severly rasped.

Judge Abbott opened the speaking in an address of an hour's length, in which he devoted his entire attention to national affairs. He said nothing whatever relative to the state campaign, and of course, his remarks were wholly directed to national issues.

Senator Coke started out by asserting that there were lots of spurious democrats in Texas; that the woods were full of so-called democrats of the Clark, Nugent and Cuney stripe. Here he branched off and took up the discussion of the Houston convention. He claimed that the Hogg faction was the genuine democratic party of Texas, and denounced the Clark men as being bolters and enemies of the democratic party. He charged that Clark, Nugent and Cuney had entered into a combination to down the democracy and said that this trio and their followers made a happy and beautiful combination, composed as it was of blue black and white spitits, all of whom professed to be Jeffersonian democrats. Here the senator reviewed the history of the democratic party from the war down to the present time and announced Gov. Hogg to be the only democratic nominee in the state to date. In this connection, after paying a grand tribute to Gov. Hogg, he said: "Let me tell you now that with the light of the past before us I assert and charge that any man who opposes the regular democratic ticket headed by Gov. Hogg is a traitor to the democracy and his country. With the force bill staring us in the face as it does I say that the hand that scratches a democratic ticket in the coming election is the hand of a traitor and the owner of that hand ought not to live."

Here the senator discussed the Hogg platform promulgated at Houston and labored hard to reconcile it with the platform of the national democracy on the silver question. He then discussed the plank of the platform favoring an income tax and strongly advocated it. He then took up the question of state banks and declared himself to be in favor of them. He then took up the commission question, and in discussing the late decision of Judge McCormick at Dallas said: "I am here to day to say that the decisions of forty cowpens full of little 2x4 judges declaring a railway commission unconstitutional or invalid will never be convincing to the people of Texas. While the supreme court of the United States may sustain the decision of Judge McCormick I want to give it as my opinion that such will not be the case. It must be understood that the injunction granted at Dallas by Judge McCormick is only temporary in its nature and not, thank God, a finalty. If in any event it should be declared unconstitutional or void we will make one that will hold, and we won't call on Clark, Cuney and Nugent to do it either. The people of Texas are cocks of this walk and Hogg is marching at the head of the procession leading them, too."

The senator then charged that the Clark men at Houston bolted in accordance with a prearranged plan and that the bolt could never be justified in the mind of any sensible or patriotic democrat. He charged that the third partyites were but the willing tools of unscrupulous leaders who were seeking to lead them from the fold of democracy for the purpose of forwarding their own base personal ends.

Judge Clark seemed to give the senator a world of trouble; and that his speech here was, from start to finish, but an impassioned tirade against all who dared to oppose Hogg one and all admit.

Said he: "When the people declared again for Hogg this year by over a two-thirds majority the grandest victory in the history of American politics was secured. Every corrupt factor in state politics was arrayed against him, but all went down like grain before a reaper when the unpurchasable democracy of the rural districts arose in their might and rallied to the standard of that intrepid leader." Hogg, he said, was a man of "great ability, strong individuality and purpose, and a friend of the people," while Clark was but the "willing tool, or little jy-unt of the combined corporate interests of Texas against them."

The Senator asserted that there was not a line of the Hogg platform that was not in accord with the true principles of the democracy, and that no one but a little jy-unt would or could be heard to assert the contrary. He was also exceedingly severe on the third partyites, ridiculing their plan of holding camp-meetings, and in so doing, said he, "they are engaged in the sorriest business imaginable."

To give all the senator said would be almost an impossibility, for his speech was disconnected and almost wholly, as before stated, composed of bitter and abusive language, directed against every person who could not see their way clear to support Hogg and his ticket. That his speech has created a sensation here is apparent, and at this hour, 4:30 p. m., excited groups are on the streets discussing it.

The Kansas Calamity Howlers.

We clip the following from the Globe Democrat; which shows which way the political wind is blowing:

WASHINGTON, D. C. Sept. 9—W. W. Smith, of Topeka, Kan., is in the East, with a view to making arrangements with the Republican National Committee for speakers to help carry every congressional district for the Republicans. He saw Chairman Carter at headquarters in New York yesterday and informed him that the state and electoral tickets are safe, and that good talkers are needed above all things. Many of the Kansas Democrats are disgusted with the present arrangements in the state and prefer to vote for Republicans, to save the reputation of the state from the calamity howlers.

A Significant Prize-Fight.

Capt. W. R. Robinson of Alvin, Brazoria county, a prominent people's party campaigner is in the city. Talking of the recent prize-fight in which John L. Sullivan's star set, he remarked to Round About: "While I am opposed to prize-fighting on principle, yet I must say I feel glad that Corbett came out 'top sawyer.' Corbett is an enthusiastic people's party man, and he has made several speeches for us. He is well educated and said to be a man of good address."—Dallas News.

THE GOVERNMENT OF THE UNITED STATES PARTAKES OF THE NATURE OF A LIMITED MONARCHY.

Essentials Evils of Our Republic.

The Reform Movement a War on Monarchical Systems and not on the Present Office-holders.

BY PROF. A. P. A. STRAIO.

With derision, some may look upon the assertion that "the government of the United States partakes of the nature of a limited monarchy;" nevertheless, this is the truth.

Materially, that which makes governments monarchies, and which ever in all ages has done so (materially or essentially I say), is certain forms of public matter or transactions under the exclusive jurisdiction and management of a class or classes for their individual profits at the expense of the masses,—a taxation of the public, either directly or their trade, for the profits of certain individuals or classes. What name is given to this class matters not—matters not whether nobility, aristocracy, or corporation—in substance or principle it is the same. So that, a limited monarchy I may define as a government whose supreme power is vested in a minority of the people, or whose power is available by them, whereas the minority usurp their living from the majority through virtue of partial lones ane special privileges.

Now, to ascertain whether our government, essentially, partakes of the nature of a limited monarchy or not, is to determine whether we have any public matter under exclusive jurisdiction and management of private classes for their individual profits at the expense of the masses, — to determine whether the transportation on railroads, transmission of intelligence through the telegraph, and jurisdiction of money matters and banking are public or private. If they are public in nature, then our government partakes of the nature of a limited monarchy; but if private in nature, then it does not. But any matter which is private concerns only that respective individual or class who has it in charge and concerns none others. Is, then, this the case with transportation on railroads? transmission of intelligence through the telegraph? and jurisdiction of money matters and banking? No. It concerns all, and is public. Just as much is the government ownership and supervision of railroads public in nature as is the government ownership and supervision of bridges and road-working implements; just as much is the transmission of intelligence through the the telegraph public as is the transmission of intelligence through letters; and likewise, the supply of a medium of exchange under proper regulations directly to the people by the government, is fundamentally public in its nature.

So, in our government, we have certain forms of public matter under jurisdiction and management of private classes (private corporations of public matter) for their individual profits at the expense of the masses—a taxation of the public trade for the profits of certain classes—which makes it partake of the nature of a limited monarchy to that extent.

It is to be understood that a true democratic or republican government acts directly with the people through agents elected by them, instead of acting through prerogative classes or corporations and the people made to pay unnecessary taxes on their trade for the benefit of these privileged classes.

And it is moreover to be understood that it is not the name that makes a government either a free government or a monarchical one, but the principle. For instance, to call the British monarchy a republic, call parliment congress, call the chief executive president, and call the dukes, marquises, earls, viscounts and barons senators, would not make that monarchy a republic and free government nor relieve that people an iota from their present condition of oppression.

It is true that restricting by law these private corporations of public matter in their rates has a tendency to lessen the aforesaid unnecessary taxes; but it does not remove the monarchical prevalence. However, I don't know but what the restriction of these corporations in their rates might be taken merely as a sham to veil from the people the monarchical features; for I believe that in the end they aggregate a profit for themselves about the same as otherwise they would obtain in way of competition and charging as much as the people would submit to without impending too much their patronage.

Such are the essential evils of our republic; namely, private corporations of public matter (attended with monopolies), involving a taxation of the public trade for the profits of private classes at the expense of the masses; and are grievances, unquestionably, as great as was the attempted taxation of the Colonial-English trade for the profits of the Englishmen at the expense of the colonies, which brought on the revolutionary wars.

Let us investigate and see what this private supervision of public matter does in this country:—

For every article we buy which comes over the thoroughfares known as railroads, we are required to pay at least one third more than if the transaction was economically administered by the government the same as other public transactions, and for every article we sell are required to take at least one-third less; which is nothing but a tax for the proprietors at the expense of the people, and is that which has made them millionaires and now gives them the ability to live in great splendor. For every message of intelligence that is sent through the telegraph, the respective persons are obliged to charge us as much more for the products of their industry or for their services as would be saved by having the transaction economically administered by the government the same as other public transactions; which is nothing but a tax for the proprietors at the expense of the people, and is that which is making them millionaires and affording them splendor. And for every dollar issued through the banking system on the bonded debt, we have an annual tax of the difference between the interest on bonds and the tax or interest on the circulation or from two to three per cent.; which is a direct tax for the bond-holders at the expense of the people, or in other words an outright donation of two to three per cent. to the bondholders by the government, and is that which dispossessed the people of the millions of dollars they (the bondholders) now own. In short, it has concentrated the wealth to these proprietors to such an extent that they now own as much (and some more) as the lords of the English monarchy, and caused hundreds of thousands of the masses to become homeless and who are now nearly as destitute as the English subjects.

But these grievances are nothing compared to what they will be if this private supervision of public matter is not changed to an economical administration by the government. For as sure as these money-powered corporations are permitted to continue augmenting their power, as the condition of things mature in their favor, they will eventually procure absolute control of the elections (especially the senate of the United States, as therein lies the power to confirm nominations and to try impeachments), their men of princely standing will be elected to office, a standing army will be ushered forth, and our government proclaimed a monarchy proper.

The facts are, a class of men of great riches and political power become so lofty and haughty and endowed with such feeling of superiority that they look upon the working classes as mere living engines to further the welfare of their greatness; and thus strain every nerve and use every stratagem to get these creatures subjugated under systems agreeable to their will and wishes, and whereunder they can live in the greatest splendor with the least exertion. It was in consequence of such conditions that the republic of Rome, essentially, had declined, fell, and became a monarchy—the same, essentially and universally, with all republics that have existed and have fallen. And here is where the danger lies for our people to tolerate these governmental privileges to private classes, the existence of monopolies, and the concentration of wealth to the few. As the riches and splendor of these classes increase, their feeling of superiority and greatness will increase likewise and with it a demand for systems which will afford them the greatest ease and pleasure, and thus gradually drift into the institution of a monarchy.

DEMOCRAT PUB. CO.,

THURSDAY. SEPT. 15, 1892.

"OLD BRAINS" has let something drop.

PITCH into politics, this is a free country.

THE country is safe Corbett has whipped Sullivan.

PROSPERITY is paramount to the success of any party.

GEORGE CLARK has succeeded in turning Texas loose.

THE character of Nugent shines brighter and brighter.

THE great political question of Texas is:—Where are we at?

THERE is no man so mean as he who turns his back on a friend.

THE Dallas News is a hummer, it refuses to bow to "Old Brains."

To the gentleman who wishes to fight: Keep your shirt on, we are not mad.

J. L. REYNOLDS of the Van Alstyne Leader is getting up a good newsy paper.

IT is conceded that the people's party of Texas have 125,000 voters enrolled.

HON. J. W. BAILEY says Hogg is the nominee—all others are "mugwumps."

WE learn that the Clarkites will raise a campaign fund to keep Coke on the stump.

JUDGE T. L. NUGENT'S character remains without reproach Why not elect him governor?

THE brainy and conservative Nugent stands on a platform, which is plain to say the least.

POLITICS is below par now. Corbett has the floor and is receiving the plaudits of the multitudes.

THE country is not "agin" the town this year. It is a joint fight for the preservation of Texas.

EVEN staunch democrats acknowledge that Coke, Reagan and Mills are nothing but demagogues.

WE rise to a point of order: Our opponents have deviated from the question—the "twelfth plank."

NUGENT wishes to treat corporations fairly. He does not threaten to put Gould and others in stripes.

THE "third party" is getting a little rest, the Hogg democracy is now engaged in abusing the Clark wing.

THE self constituted dictator like senator Coke should be given to know that he is not boss of the situation this time.

COL. H. L. BENTLEY has appointed able men to conduct the people's party campaign in different portions of Texas.

THE worst kind of frauds were practiced in the late Arkansas election. Texans be on your guard next November.

WE are under obligations to the Secretary of State for the journals of the last regular and specials sessions of the Texas legislature.

Texas Press association takes charge of the people's party campaign in South-west Texas.

CHOLERA is still raging, but up to date the United States is safe.

LATER: Five deaths are reported this morning in New York.

THERE is only one remedy, that is for capital and labor to concede to each other and act friendly. The selfishness of either will only widen the breach.

SENATOR COKE declares that the man who scratches a democratic ticket this year "ought not to live." Undertakers will please take notice and order an increase stock of goods.

HON. WASH JONES of Bastrop who was only beaten by Ireland forthe governorship by 45,000 majority is stumping the state for the people's party. He is one of the best speakers Texas affords.

JEROME C. KERBY made a speech in Dallas last Friday which was considered a masterly effort by democrats who heard it. Kerby is the people's party candidate for congress of the Dallas district with splendid chances for election.

THE Hoggocrats claim that there is a combination between the people's party and the Clarkites. This is untrue. The people's party recognize the Clark element as an honest enemy who are not given to political bushwhacking.

SENATOR COKE omitted to say just how recalcitrant traitors who refuse his way should be put to death. Shall they be hanged, shot or electrocuted, or shall the Waco sledgehammer pound the vitality out of them with his fist?—Dallas News.

MR. F. C. THOMPSON, of the McKinney DEMOCRAT, attended the alliance meeting at Austin on the 17th of August. We are of the opinion that the attractions at the dam and the "dummy" ride with its accompaniments were of more importance than the meeting in the capitol building.—Publishers Guide, Dallas, Tex.

You are mistaken, yet we acknowledge that to see Austin's "dam site" was interesting indeed, especially when accompanied with such fair guides.

TEXAS has some citizens who are opposed to Mr. Cleveland and ardently in favor of Gov. Hogg. The administration convention at Houston was full of them. There are some farmers of this way of thinking. They had about concluded to vote for Hogg and Weaver until Senator Coke in his Hogg speech at Hillsboro drove it to them in this wise: "With the force bill staring us in the face as it does I say that the hand that scratches a democratic ticket in the coming election is the hand of a traitor and the owner of that hand ought not to live."—Dallas News.

If politics get much hotter in Texas the chief question in trials for capital offenses will be whether the accused is for Clark or Hogg and who was his victim for while he was in the flesh.—Dallas News.

And if the jury is composed of third party men the accused will be hung. If republicans compose the jury he will go to the pen for life. Suicide is the only way open for escape.—Examiner.

If you want to know just how much it takes to run the government attend a third party camp meeting. They have the figures.—McKinney Examiner.

That's right brother, come out and learn something to put in that sheet of yours.

Coleman speaks Saturday.

Judge T. L. Nugent in his recent Dallas speech, while commenting on Senator Coke said:

Did you catch the broad and sweeping character of that charge? Any man, whether be he a republican, people's party man, prohibitionist, or what not, who opposes the democratic ticket headed by Gov. Hogg is a traitor to the democracy and his country, and with the force bill staring us in the face, as it does, "I say that the hand that scratches a democratic ticket in the coming election, is the hand of a traitor and its owner ought not to live." A political organization inspired by such a sentiment does not benefit Texas. A dozen force bills are preferable to such a presumptive and infamous sentiment. [Applause]. I hope the utterance was not correctly reported. I cannot consent to believe that a man whom the people of Texas have honored for twenty long years should thus disgrace the position he holds by virtue of the suffrages of men whom he thus denounces. A more treacherous sentiment has never found vent in a public speech in Texas within the thirty years that I have been in the state. You may ransack the press north and south and you will find no man of such prominence getting on the stump and dealing out damnation to every political opponent as Goy. Coke is reported to have done. Mills, who stands before you as the impulsive champion of organized democracy in Texas, has never, in his most extravagant eloquence, given utterance to a sentiment so diabolical as that a political opponent is a traitor and deserves death. [Sensation.] You who belong to the people's party, and you respectable democrats who are devoted to the constitution, I call upon you as a fellow-citizen to move and live and sleep and awake with a united determination to retire Coke two years hence. [Voices—We will.] No man deserves to be in office who would give such expression to such a sentiment. Even the followers of Gov. Hogg (if the report of Senator Coke's speech is true) ought to circulate a petition in this state asking the senator to resign his seat in the senate. [Prolonged applause in which democrats joined.]

Deferred from Last Week.

Editor Democrat.

PRINCETON, Tex., Sept. 1892—We received a refreshing shower of rain last Sunday.

The health of this part of the moral vineyard is only moderately good, there being some few cases of fever, but our physician seeketh to restore the wonted equilibrium to our morbid anatomy.

Miss Ora Haskins visited her sister, Mrs. Lokey, in Farmersville last week.

Mr. Jones and wife returned to their home in Collinsville this week. They have been visitlng relatives and friends for some time.

Last Sunday eve our town, "Calamity city" was surprised to learn that an other couple had launched their bark on the billowy sea of matrimony for weal or for woe, while king Sol was peeping from behind the inky curtains that overshadowed the sky and tinging them with crimson and gold, and the soft gentle breeze from the south was fanning the cheek of the fair youths of this town Mr. Allen Stanford of Nevada, led Miss Mollie Shipman to hymen's altar and was joined together for life by a short but impressive ceremony by Bro. Lowry. We extend to them our hearty congratulations and trust that when life's journey is ended they may enter the pearly gates of eternal happiness and wear a crown of eternal life.

Prof. Harrelson is teaching a music school in the "city" now. We hope it will prove a success and a source of employment for all.

Mr. Rollins delivered an excellent address to the people of our town last Saturday night owing to the unfavorable weather the crowd was small. We hope the people will not be so easily frightened by a cloud next time and attend to their duty, for this is the time to look, listen and learn, read and be wise.

Everybody is going to the picnic to have a good time and we would like to go too, but we can't, for the old man has an over production of "rumatiz" this week and Jack and Sally have to pick the five cent cotton, so there is no time for picpicnic or pleasure. As the children of Israel was freed from the Egyptian bondage, so in like manner we would be free. But, alas! who is the which we have plunged. Awake O ye people from the lethergy into which you have fallen and attend to your duty at once. For if thou dost not look after thine own interests, who will for you?

Precinct Nomination.

Editor Democrat,

ANNA, Tex., Sept. 10. 1892.—Acting in accordance with call of the chairman of precincts Nos'. 3 and 8, a number of people's party men assembled at Seven Points' school house to nominate a commissioner. From the first, great interest was manifested by the friends of both candidates, G. P. Jones and James Cave.

The convention was called to order by W. W. Maddox, of Precinct No. 8, who was elected by acclamation for chairman. The writer was elected Sec'y. from precinct No. 3. The majority rule was adopted and nominations for commissioner was declared in order:

Mr. James Cave was put in nomination by R. A. Barrett, and G. P. Jones was put in nomination by John Doyle. After several seconding speeches, nominations were declared closed, by chairman Maddox. The first and only ballot stood G. P. Jones 43, James Cave 42, One of Mr. Cave's friends moved to make the nomination unanimous; Mr. Cave seconded the motion, and G. P. Jones was declared nominated by a unanimous vote, after all the candidates present announced, the convention adjourned sine die.

The readers of the DEMOCRAT will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

STONG WITNESSES.

Among the thousands of testimonials of cures by Dr. Miles' New Heart Cure, is that of Nathan Allisons, a well known citizen of Glen Rock, Pa., who for years had shortness of breath, sleeplessness, pain in left side, shoulders, smothering spells, etc.; one bottle of Dr. Miles' New Heart Cure and one box of Nerve and Liver Pills, cured him. Peter Jaquet, Salem, N. J., is another witness, who for twenty years suffered with Heart Disease, was pronounced incurable by physicians, death stared him in the face, could not lie down for fear of smothering to death. Immediately after using the New Cure he felt better and could lie down and sleep all night, and is now a well man. The New Cure is sold, also Free Book, by Smith Bros. 2.

A Goood Thing To Keep at Hand.

From the Troy (Kansas) Chief.

Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symtoms that usually preceed that ailment, such as sickness of the stomach, diarrhœa, etc., we become scary. We have found Chamberland's Colic, Cholera and Diarrhœa Remedy the very thing to straighten one out in such cases, and always keeps it about. We are not we not writing for a pay testimonial, but to let our readers know what is a good thing to keep handy in the horse. For sale by R. E. Bristol,

or big pay and no work.—McKinney eqaminer.

Yes, sir: we believe in cheap money and high wages but rerepudiate your last clause—"no work." We trust that your readers are not silly enough to believe such stuff. We know, however, of some men on your side of the fence who believe in "big pay and no work." Do you doubt it? If so, cast about and see if you dont discover something.

A Reward of $500

Will be paid for any case of Rheumatism which cannot be cured by Dr. Drummond's Lightning Remedy. This offer is made in good faith by the proprietors, and there is no reasonable excuse for any one to suffer longer. Any ordinary case will be cured with one bottle. In addition to the reward for difficult cases, the money is always refunded where the remedy fails to cure. The price of a bottle is $5—and that is the price of a cure. R. W. Coleman speaks at the court house Saturday, at 1 p. m. in behalf of the people's party. Come out to hear him.

Mr. E. W. Kirkpatrick the magnanimous head and generous general manager of the San Carlos colony made us a call this week. As usual he was full of pleasant intelligence and buoyantly hopeful of our section. Mr. Kirkpatrick will remain here for one month, or through the busiest time of planting the fall crops, from which we are expecting good results since it has rained and put a good season in the ground. Come again Mr. Kirkpatrick your visits are always appreciated. —Rockport Beacon.

Last Monday night, a man giving his name as C. J. Smith, was arrested for drunkenness. Tuesday morning he was brought out and plead guilty and was fined. The officer started to work him on the street, but Smith refusing to work, was returned to the calaboose about 11 o'clock and was chained around the neck, and there he was found dead on returning at 12 o'clock. The jury of inquest inspected the body and returned a verdict that he came to his death by strangulation. It does seem to us as long as there are open saloons here that a man should be treated as though he was human, although he should get drunk, and not be chained up by the neck as if he was a wild animal. —Later: Report has it that deceased leaves a family. There is much criticism regarding the city officials in allowing such inhuman treatment.

Cleveland and Clark Club.

MCKINNEY, Tex., Sept. 8.—Pursuant to a published call there was a meeting of the friends of Judge Clark at the court-house last night to take preliminary steps toward the organization of the Clark campaign in this county.

Col. R. De Armond was called to the chair to preside as temporary chairman and W. H. Sims temporary secretary. The chairman fully explained the purpose of the meeting, and then appointed a committee on resolutions consisting of Dr. T. W. Wiley, T. B. Wilson, Jesse Shain, R. T. Seay and H. C. Mack.

While the committee was out a stirring address in behalf of Judge Clark was delivered by Col. Aaron Coffee, after which the committee reported preamble and resolutions which were unanimously adopted by the meeting.

On motion the chairman appointed G. A. Foote, Col. Aaron Coffee and J. A. Gresham a committee on permanant organization to report at the next regular meeting, to be held on Thursday night, Sept. 15.

R. T. Seay was instructed to prepare a club roll with a suitable heading, upon which would be enlisted the names of all persons desiring to become members of the McKinney Cleveland and Clark club.

The meeting then adjourned to meet at the next regular night.

The temper and conduct of a number of Hogg men present indicated that they expected to infuse into the pending campaign the usual amount of Hoggism, to which the Clark men say "Let her go Gallagher."

A resolution was adopted requesting the News and all county papers friendly to the cause to publish the proceedings. W. H. SIMS.

The firm of Caldwell & Webb has dissolved partnership by mutual consent. Dr. I. E. Webb will remain in the same office while Dr. A. J. Caldwell will occupy a nicely fitted office over the old board house south side square McKinney, Tex.

Shall We drive Slow Poison from our Breakfast Table.

A nuisance that troubled England fifty years ago is now rapidly spreading in this country, that is putting alum in the bread we eat. This question is causing a great deal of discussion at the present moment, as it is revealed that alum is being used as a substitute for cream of tartar in baking powders. A story is told that a very large percentage of the baking dowders sold on the market contain either alum or ammonia and many of them contain both these pernicious drugs. Much timely alarm is felt at the wholesale use of alum in bread, biscuit and pastry. To young children growing girls, persons of weakly frame, alum bread eaten morning, noon and evening is most harmful. It is the small quantities taken at every meal that do the mischief. Alum is cheap costing but two or three cents a pound, while cream of tartar costs 30c, and the high price of cream of tartar has led to cheap baking powder being made of alum. If the reader wants to know something of the corrosive qualities of alum let him touch a piece to his tongue then reflect how it acts on the tender, delicate coats of the stomach.

The Scientific American published in a recent number a list of alum and ammonia baking powders, which is of great value at this time. Following is a condensed list compiled from official reports. Powders marked with a star seem to have a general sale, as they are mentioned in at least two of the official reports:

*Atlantic & Pacific. *Royal.
Crown. Siluer Star.
*Davis' O. K. *Snow Drift.
Gem. Star.
*Kenton. Standard.

There are, in addition to the foregoing list from the Scientific American, a number of such powders sold in the western that were not found in the eastern stores

Following is a list of the most prominent:

ANDREWS' PEARL, contains ammonia. (C. E. Andrews & Co., Milwaukee.)

ACME, contains ammonia, (Thos Wood & Co., Philadelphia.)

BON BON, contains alum (J. C. Grant Baking Powder Co., Chicago.)

CALUMET, contains alum. (Calumet Baking Powder Co., Chicago.

CLIMAX, contains ammonia. (Climax Baking Powder Co., Indianapolis.

FOREST CITY, contains ammonia alum. (Vouwie Bros. Cleveland.)

HOTEL, contains ammonia alum (J. C. Grant Baking powder Co., Chicago.)

HERCULES, contains ammonia, (Hercules Baking Powder Co., San Francisco.)

ONE SPOON TAYLOR'S ammonia alum, (Taylor Manufacturing Co., St Louis.)

RISING SUN, contains ammonia (Phoenix Chemical Works, Chicago.)

ROYAL, contains ammonia (Royal Baking Powder Co., New York.)

BRIGHT DAYS ARE COMING.

(Tune: The ship that never returned.)

From the western fields where the grain is waving,
The harvest farmers come
To join the ranks of the noble army,
In the battle for reform.

(Chorus.)
Brighter days are coming?
Brighter days are coming,
For the toilers of the land;
'Tis for years and years
We've been looking forward
For the victory now at hand.

From the southern plains a host is coming:
The noble and the brave,
A goodly band of as gallant heroes
As God above e'er gave.

A voice comes out from the western mountains
Shouting onward, let us go!
And from out the sides of our rugged mountains
A stream of wealth shall flow.

The son's of toil from the busy cities
Will help to swell the ranks,
And on to Washington will be our march,
In a strong and grand phalanx.

Cheer up, cheer up, y'ou weary workers
And answer one more ca!!!
In union steering for the coure of justice,
Let us stand or fall.

From eastern hills and western plains,
The call is answered back,
From northern slopes and southern bottoms,
For numbers we'll not lack.

Two Great Blood Remedies Compared.

Nothing is more clearly demonstrated than that there are two distinct forms of malaria, which, for the want of better names, may be denominated acute and chronic. It has been recently shown that the parasite which causes malaria are different in the acute and chronic forms. The acute form is commonly known as as fever and ague, or chills and fever. This form of the disease is too well known in malarious districts to need description, and is generally cured by a large doses of quinine, though this is not so favorable a remedy as Pe-ru-na. The chronic form of malaria is by no means, so well understood, as the symptoms are hardly ever exactly alike in any two cases, and it is rarely if ever, cured by taking quinine. Each case presents slightly different symptoms, the most common ones being a dull headache, sallow complexion, furred tongue bad taste, poor digestion, shivering feeling, hot flashes cold feet and hands, and constant tired feelings.

Quinine will not cure such cases of chronic malaria as above described. Pe-ru-na is the only specific for such cases. Pe-ru-na is shure to cure, leaves the system with no derangement, and prodaces no drug habit hard to leave off, which quinine will do.

Pe-ru-na is for sale at most drug stores, accompanied with directions for use; but those who are using it should send for the Family Physician No. 1 a treatise on malaria. Sent free by the Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

People's Party Voters Will Please Read.

HEADQUARTERS, PEOPLES PARTY
Ft. Worth Tex., Sept. 5, 92.
To the People's Party of Texas:
—I desire to call your special attention to the following facts, viz:—

1st:—I have positive information that the National Democratic Executive Committee has decided to make a determined attack on our lines through the entire south, but particularly in Texas, during the month of September. They will not only order out all the speakers they can control in this state and put them in the field to abuse and ridicule our cause, but they will mass here a large number of speakers from other states, who will come to Texas to instruct free-born Texans how to vote. Let me caution you not to allow yourself to become demoralized by any thing of this kind. We have already in our ranks more voters than either of the other parties have, and are daily gaining in strength. No matter what this army of invasion and its allies, the home speakers, shall say or do, remember that this is their dying struggle to perpetuate their power, and, if we shall be true to ourselves, we have absolutely nothing to fear. We can afford to laugh at their sneers and their jeers, and even at their threats, and their prayers to us to save them from political destruction.

2nd:—I am also in possession of reliable information which satisfies me that we may expect parties opposed to the people's party to manufacture and place in circulation all sorts of falsehoods calculated, if believed, to create dissatisfaction in our ranks. I am in possession already of a paper of this character which is infamous but impotent, in that it is not at all likely to be believed by any sensible man. Whenever you hear of anything of this kind, or get into your possession any publication of this character, communicate at once with your county chairman, and have him communicate at once with me, that I may take the necessary steps to hunt down the infamous creatures that will concoct and circulate these falsehoods.

3rd:—One other matter I desire to call to your attention. You will discover that the speakers, who will be put out about the silver question, and not a great deal about the tariff. The burden of their cry will be "The Force Bill." They will insist that the people of the south can submit to anything and everything rather than have bayonets at the polls. Let me say to you my friends, that we have nothing to fear on this score. There is no more danger of the force bill becoming a law than there is of Great Britain taking charge of our elections. It was defeated in the United States Senate with a large republican majority. And every people's party congressman, who will go to Washington after the next November election, will go there pledged to vote against the bill. A vote for the people's party will therefore be a vote against the bill, quite as certainly as one for the democrats. Don't let this bug-bear alarm you or influence you, except to urge you to renewed efforts in our cause.

4th:—It will not be possible for this office to send out much campaign literature, owing to the fact that we are a poverty stricken people, with no millionaires in our organization and no wealthy corporations and trusts, to subsidize the speakers or help in our interest, if we wished it even. But it is possible for every people's party voter in Texas to pay for two to five or ten copies of a people's party paper from now until election day. These papers will be furnished at 10 cents until then, and our friends can and should see to it that every reasonable man in the state, now opposed to us, but willing to read and consider our platform, shall be furnished, without cost to him, with a copy of a good reform paper each week until election day. If this is done, it will secure to us 25,000 more votes, and make the election of our national and state tickets absolutely certain.

He who is forewarned is forearmed. I have now put you on your guard, and I am confident you will know what to do to protect our interests. Fraternally yours,

H. L. BENTLEY,
Campaign Manager.

GOVERNMENT OWNERSHIP.

As the Opposition Views It.

That we should give this space in our columns may cause many of our readers surprise. They will understand why the Industrial American takes an interest in a question which seems to be entirely a political one, when it is stated that the policy of Governor Hogg, who now stands as the most prominent candidate, has done more to retard the growth and progress of Texas than any man that ever filled the gubernatorial chair from the time of its occupancy by Sam Houston to the present.

Hogg is the alien land law, the anti-railroad, the anti-capital governor, of a state of greater possibilities than any other in this great union.

The obnoxious land law stopped the demand for Texas lands and made them a drug in the market.

The railroad commission endeavors to regulate freights on a basis that might be tolerated in as densely populated sections as ths New England states but certainly not for a state like Texas with its long stretches of unprofitable railroad through sections occupied by cattlemen and other stockmen, whose patronage would not support a railroad however economically managed.

With the past as a criterion the people of Texas are blind to their best interests if they again put the highest office the state can give into the hands of a man who has brought that commonwealth to the verge of financial ruin.

Texas with her undeveloped resources should encourage men with capital to aid in her development, to build up her manufacturing interests and to make suitable for homes the available sections of the state by building railroads, leaving them to regulate the rates for freights and passengers as they did before there was any railroad commission.

Many [illegible] roads have been built through uninhabited regions. It was the future development expect returns to pay for their immense outlay. Under the present condition no more roads will be built, for railroad builders, like other capitalists want some showing for a satisfactory rate of interest on their investment. which many of those now in operation complain they cannot earn under the present system.

The result of this restrictive legislation has been to make the rates of interest higher than at any time since the war driving out all foreign capital that was willing to aid in developing the state at a reasonable rate of interest, but was debarred by the alien land law from doing so.

The fight in the Lone Star state is on, and it will be one of the most bitter ever waged and may result in the third party candidate being the next governor. While we take no stock in the soreheads who branch off from the main parties, in this case we consider the election of the third party man over Hogg the greatest blessing that could happen to the great state of Texas.—Industrial American.

PEOPLE'S PARTY PLATFORMS.

National Platform.

Finance—We demand a national currency, safe, sound and flexible, issued by the general government only, full legal tender for all debts, public and private, and that without the use of banking corporations, just, equitable and efficient distribution direct to the people at a tax not to exceed 2 per cent. per annum to be provided as set forth in the subtreasury plan of the farmer's alliance, or some better system, also by payments in discharge of its obligations for public improvements.

A. We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

B. We demand the amount of the circulating medium be speedily increased to not less than $50 per capita.

C. We demand a graduated income tax.

D. We believe the money of the country should be kept as much as possible in the hands of the people, and hence demand all state and national revenues shall be limited to the necessary expense of government economically and honestly administered.

E. We demand postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange. Transportation being means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people. The telegraph and telephone, like the postoffice system, being necessary for the transmission of news should be owned and operated by the government in the interest of the people.

LAND.

Land including all natural sources of wealth is the heritage of the people and should not be monopolized for speculative purposes and alien ownership of land should be prohibited. All the lands held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

STATE PLATFORM.

Section 1. All the public lands of Texas remaining and that can be recovered should be reserved as homesteads for actual settlers. All lands heretofore granted to individuals or corporations in which the grantees have not complied with the conditions of the grant should be forfeited to the state for homestead purposes, no alien ownership of lands should be allowed in Texas; corporations shall not be allowed to own more land than they actually use in the prosecution of their business.

Sec. 2. We favor an effective system of public schools for six months in the year for all children between the ages of 6 and 20. We demand the adoption of a uniform series of text-books for the public schools of this state and that they be published at the expense of the state, which shall be furnished to the children in the schools at cost.

Sec. 3. We demand an amendment to our state constitution authorizing the loaning of our permanent school fund not otherwise invested upon lands of the people of this state at a low rate of interest with proper limitations upon the quantity of land and the amount of money.

Sec. 4. We demand reformation in the punishment of convicts that convict labor be taken out of competition with citizen labor; that convicts be expense of keeping, shall go to his family.

Sec. 5. We demand that railroads be compelled to pay their employes in the lawful money of the country, and in case of discharge then they be paid at the nearest station immediately upon their discharge.

Sec. 6. We demand fair elections and an honest count of the votes, under either the Australian or some similar system of voting.

Sec 7. We favor a railway commission with power to fix and maintain rates that will insure equal and exact justice to the people and the railways. The commission to be composed of three qualified citizens of the state to be elected by a direct vote of the people. But we regard government ownership as the ultimate solution of the railroad problem in the limits of the state.

Sc. 8. We demand an efficient lien law, that will protect the artisan, mechanic, laborer and material men.

Sec. 9. We demand that a law be passed declaring eight hours to be a legal day's work, where it is not otherwise provided by contract.

10. We demand that the maximum salaries of county officers shall not exceed $2000 per annum, after all expenses of any such office have been paid, and that surplus in excess of such salary and expenses shall be paid into and become a part of the ayailable public school fund of such county and that said excess be prorated in such counties.

11. We demand the establishment of the state bureau of labor. We favor the creation of a state board of arbitration to adjust all differences between corporation and employes.

12. We demand that commissioner's courts be not allowed to contract a debt against a county for more than $5,000, unless the same be ordered by a majority vote of the county

13. We favor such a change in the constitution as shall prohibit national bankers and members of railway, telegraph and telephone companies and their attorneys, or who shall have held such positions within two years prior to an election from holding any legislative or judicial office within this state.

Something for Merchants to Think About.

In many of our towns there are those who desire their clothing MADE TO ORDER, While at the same time there are no custom tailors in their vicinity upon whom they can rely for proper styles, prices, etc.

To meet such a demand, this branch of our business has been expressly established, and has been for many years in successful operation. The very general satisfaction with which our work has been received, enables us to guarantee that, by adopting our method, you will be able to build up a good custom trade in your town and vicinity, which, after a fair trial, will be both satisfactory to your customers and profitable to yourself.

Our garments fit and are comfortable to the wearers. We are not at all in sympathy with the too prevailing idea that ANYTHING WILL DO for what is termed COUNTRY ORDERS. Our line of samples represents the best makes of foreign and domestic manufacturers, and, together with trimmings, workmanship, etc., our work can be relied upon as being superior to that of most of our competitors.

We keep no ready-made clothing whatever, neither do we employ cheap STOCK CUTTERS, but on the contrary, all garments are cut and made expressly to your orders, by the best custom cutters attainable, and under our personal supervision.

We desire to place our line of samples with some good house in every town where such a field exists, and for this purpose invite correspondence from all responsible houses desiring a line of samples.
